NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

FORTUNE BRANDS INNOVATIONS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Principles of Consolidation

The Company is a leading home, security and digital company whose purpose is to elevate every life by transforming spaces into havens. The Company makes innovative products for residential and commercial environments, with a growing focus on digital solutions and products that add luxury, contribute to safety and enhance sustainability. References to “Fortune Brands,” “the Company,” “we,” “our” and “us” refer to Fortune Brands Innovations, Inc. and its consolidated subsidiaries as a whole, unless the context otherwise requires.

The condensed consolidated financial statements and notes are presented pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and do not contain certain information included in our annual audited consolidated financial statements and notes. The December 28, 2024 condensed consolidated balance sheet was derived from our audited consolidated financial statements, but does not include all disclosures required by U.S. generally accepted accounting principles (“GAAP”). This Quarterly Report on Form 10-Q should be read in conjunction with the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 28, 2024.

The condensed consolidated balance sheet as of September 27, 2025, the related condensed consolidated statements of comprehensive income and equity for the thirty-nine weeks and thirteen weeks ended September 27, 2025, the related condensed consolidated statements of comprehensive income and equity for the thirty-nine weeks and thirteen weeks ended September 28, 2024, and the related condensed consolidated statements of cash flows for the thirty-nine weeks ended September 27, 2025 and September 28, 2024 are unaudited. The presentation of these financial statements requires us to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from those estimates. In the opinion of management, all adjustments necessary for a fair statement of the financial statements have been included. Interim results may not be indicative of results for a full year.

2. Recently Issued Accounting Standards

In December 2023, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2023-09 which requires expanded disclosure of the effective tax rate reconciliation and income taxes paid. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. We will adopt this ASU for the annual period ending December 27, 2025, and it will only impact our disclosures with no impact to our financial statements or results of operations.

In November 2024, the FASB issued ASU 2024-03 which requires an entity to disclose the amounts of purchases of inventory, employee compensation, depreciation, and intangible asset amortization included in each relevant expense caption. It also requires an entity to include certain amounts that are required to be disclosed under current GAAP in the same disclosure. Additionally, it requires an entity to disclose a qualitative description of the amounts remaining in relevant expense captions that are not separately disaggregated quantitatively, and to disclose the total amount of selling expenses and, in annual reporting periods, an entity’s definition of selling expenses. The ASU is effective for annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027, with early adoption permitted. An entity may apply the amendments prospectively for reporting periods after the effective date or retrospectively to any or all prior periods presented in the financial statements. While this ASU will impact only our disclosures and not our financial statements or results of operations, we are currently evaluating when we will adopt the ASU.

In September 2025, the FASB issued ASU 2025-06 which amends guidance related to the accounting for internal-use software development costs. The amendments are intended to modernize the recognition and capitalization framework to reflect current software development practices, including iterative and agile methodologies, by removing references to “development stages” and clarifying the threshold to begin capitalizing costs. The ASU is effective for fiscal years beginning after December 15, 2027 and interim periods within those fiscal years, with early adoption permitted. An entity may apply the amendments prospectively, retrospectively, or utilizing a modified transition approach. We are in the process of evaluating the impact of the ASU on our consolidated financial statements and related disclosures.

3. Balance Sheet Information

Supplemental information on our balance sheets is as follows:

(In millions)	<u>September 27, 2025</u>	<u>December 28, 2024</u>
Inventories:		
Raw materials and supplies	\$ 329.7	\$ 329.2
Work in process	58.7	56.8
Finished products	652.7	574.3
Total inventories	\$ 1,041.1	\$ 960.3
Property, plant and equipment, gross	\$ 1,752.6	\$ 2,016.7
Less: accumulated depreciation	937.1	1,017.5
Property, plant and equipment, net	\$ 815.5	\$ 999.2

During the thirteen weeks ended September 27, 2025, we determined one of our assets, with a carrying value of \$153.6 million as of December 28, 2024, met the criteria to be classified as held-for-sale and ceased recording depreciation. Management's decision to dispose of the asset was made as a result of the Company refocusing the business on areas with better growth and profitability potential, while utilizing additional capacity at existing manufacturing facilities. We concluded the carrying value of the asset exceeded its fair value, less estimated costs to sell, and recorded an impairment charge of \$49.7 million on the consolidated statements of income within the Outdoors segment. The estimated fair value was determined using a combination of market and income approaches, which were based on valuation assumptions including certain Level 3 inputs. These assumptions included estimated sublease rental income, discount rates, market sales data and other market participant assumptions. The asset was reclassified from Property, plant and equipment, net to Assets held for sale in the Company's condensed consolidated balance sheets as of September 27, 2025.

4. Acquisitions

SpringWell

On February 29, 2024, we acquired 100% of the outstanding equity interests of Wise Water Solutions, LLC, doing business as Springwell Water Filtration Systems ("SpringWell") for a purchase price of \$105.6 million, net of cash acquired of \$1.4 million. We financed the transaction using cash on hand and borrowings under our existing credit facility. The results of SpringWell are reported as part of the Water Innovations ("Water") segment. We have not included pro forma financial information as the transaction is immaterial to our condensed consolidated statements of comprehensive income. The fair value allocated to assets acquired and liabilities assumed as of February 29, 2024, was \$105.6 million, which includes \$85.2 million of goodwill. Goodwill includes expected sales and cost synergies and is expected to be deductible for income tax purposes.

5. Goodwill and Identifiable Intangible Assets

We had goodwill of \$2,004.0 million and \$1,992.0 million as of September 27, 2025 and December 28, 2024, respectively. The change in the net carrying amount of goodwill by segment was as follows:

(In millions)	Water	Outdoors	Security	Total Goodwill
Goodwill at December 28, 2024 ^(a)	\$ 1,211.2	\$ 651.1	\$ 129.7	\$ 1,992.0
Year-to-date foreign currency translation adjustments	11.5	-	0.5	12.0
Goodwill at September 27, 2025 ^(a)	\$ 1,222.7	\$ 651.1	\$ 130.2	\$ 2,004.0

(a) Net of accumulated impairment losses of \$399.5 million in the Outdoors segment.

The gross carrying value and accumulated amortization by class of identifiable intangible assets as of September 27, 2025 and December 28, 2024 were as follows:

(In millions)	As of September 27, 2025			As of December 28, 2024		
	Gross Carrying Amounts	Accumulated Amortization	Net Book Value	Gross Carrying Amounts	Accumulated Amortization	Net Book Value

Total	1,241.8	(512.0)	729.8	1,230.5	(452.1)	778.4
Total intangible assets	\$ 1,761.3	\$ (512.0)	\$ 1,249.3	\$ 1,749.3	\$ (452.1)	\$ 1,297.2

We had net identifiable intangible assets of \$1,249.3 million and \$1,297.2 million as of September 27, 2025 and December 28, 2024, respectively. The \$12.0 million increase in gross identifiable intangible assets was primarily due to foreign currency translation adjustments.

Amortizable identifiable intangible assets, principally customer relationships, are subject to amortization over their estimated useful life, ranging from 5 to 30 years, based on the assessment of a number of factors that may impact useful life, which includes customer attrition rates and other relevant factors.

6. External Debt and Financing Arrangements

Senior Notes

In June 2025, we repaid our 4.000% senior unsecured notes issued in June 2015 at their maturity date using a combination of cash on hand and commercial paper borrowings.

At September 27, 2025, the Company had aggregate outstanding senior notes in the principal amount of \$2.2 billion, with varying maturities (the "Notes"). The Notes are unsecured senior obligations of the Company. The following table provides a summary of the Company's outstanding Notes, including the net carrying value of the Notes, net of underwriting commissions, price discounts, and debt issuance costs as of September 27, 2025 and December 28, 2024:

Credit Facilities

In August 2022, the Company entered into a third amended and restated \$1.25 billion revolving credit facility (the “Revolving Credit Agreement”), and borrowings thereunder will be used for general corporate purposes. The maturity date of the facility is August 2027. Interest rates under the Revolving Credit Agreement are variable based on the Secured Overnight Financing Rate (“SOFR”) at the time of the borrowing and the Company’s long-term credit rating and can range from SOFR + 1.02% to SOFR + 1.525%. Under the Revolving Credit Agreement, the Company is required to maintain a minimum ratio of consolidated EBITDA to consolidated interest expense of 3.0 to 1.0. Consolidated EBITDA is defined as consolidated net income before interest expense, income taxes, depreciation, amortization of intangible assets, losses from asset impairments, and certain other one-time adjustments. In addition, the Company’s ratio of consolidated debt minus certain cash and cash equivalents to consolidated EBITDA generally may not exceed 3.5 to 1.0. There were no outstanding borrowings under this facility as of September 27, 2025 and December 28, 2024. As of September 27, 2025, we were in compliance with all covenants under this facility.

We currently have uncommitted bank lines of credit in China, which provide for unsecured borrowings for working capital of up to \$30.5 million in aggregate as of both September 27, 2025 and December 28, 2024. There were no outstanding balances as of September 27, 2025 and December 28, 2024.

Commercial Paper

The Company operates a commercial paper program (the “Commercial Paper Program”) pursuant to which the Company may issue unsecured commercial paper notes. The Company’s Revolving Credit Agreement is the liquidity backstop for the repayment of any notes issued under the Commercial Paper Program, and as such, borrowings under the Commercial Paper Program are included in Long-term debt in the condensed consolidated balance sheets. Amounts available under the Commercial Paper Program may be borrowed, repaid and re-borrowed, with the aggregate principal amount outstanding at any time, including borrowings under the Revolving Credit Agreement, not to exceed \$1.25 billion. The Company will use any issuances under the Commercial Paper Program for general corporate purposes. Outstanding borrowings under the Commercial Paper Program as of September 27, 2025 and December 28, 2024 were \$479.0 million and zero, respectively.

7. Financial Instruments

We do not enter into financial instruments for trading or speculative purposes. We principally use financial instruments to reduce the impact of changes in foreign currency exchange rates and commodities used as raw materials in our products. The principal derivative financial instruments we enter into on a routine basis are foreign exchange contracts. Derivative financial instruments are recorded at fair value in the consolidated balance sheet and are reflected on a gross basis. We have not entered into any master netting arrangements. The counterparties to derivative contracts are major financial institutions. We are subject to credit risk on these contracts equal to the fair value of these instruments. Management currently believes that the risk of incurring material losses is unlikely and that the losses, if any, would be immaterial to the Company.

Raw materials used by the Company are subject to price volatility caused by weather, supply conditions, geopolitical and economic variables, and other unpredictable external factors. As a result, from time to time, we enter into commodity swaps to manage the price risk associated with forecasted purchases of materials used in our operations. We account for these commodity derivatives as economic hedges or cash flow hedges. Changes in the fair value of economic hedges are immediately recognized in current period earnings.

We may be exposed to interest rate risk on existing debt or forecasted debt issuance. To mitigate this risk, we may enter into interest rate hedge contracts. There were no outstanding interest rate hedge contracts as of September 27, 2025.

We may enter into foreign currency forward contracts to protect against foreign exchange risks associated with certain existing assets and liabilities, forecasted future cash flows, and net investments in foreign subsidiaries. Foreign exchange contracts related to forecasted future cash flows correspond to the periods of the forecasted transactions, which generally do not exceed 12 to 15 months subsequent to the latest balance sheet date. Our primary foreign currency hedge contracts pertain to the British pound, the Canadian dollar, the Mexican peso, the South African Rand and the Chinese Yuan. The gross U.S. dollar equivalent notional amount of all foreign currency derivative hedges outstanding at September 27, 2025 was \$646.4 million. Based on foreign exchange rates as of September 27, 2025, we estimate that \$11.8 million of net derivative gains included in accumulated other comprehensive income as of September 27, 2025 will be reclassified to earnings within the next twelve months.

FORTUNE BRANDS INNOVATIONS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We have entered into cross-currency swap contracts to hedge both our Canadian dollar and Chinese Yuan exposures of the Company's net investments in certain foreign subsidiaries. As of September 27, 2025, the notional value of the cross-currency swap contracts was \$141.3 million and expire at various dates through November 2026. The cross-currency swaps were designated as net investment hedges, with the amount of gain or loss associated with the change in fair value of these instruments included within accumulated other comprehensive income and recognized upon termination of the respective net investment.

For derivative instruments that are designated as fair value hedges, the gain or loss on the derivative instrument, as well as the offsetting loss or gain on the hedged item, are recognized on the same line of the consolidated statements of income. The changes in the fair value of cash flow hedges are reported in accumulated other comprehensive income and are recognized in the consolidated statements of income when the hedged item affects earnings.

The fair values of derivative instruments on the consolidated balance sheets as of September 27, 2025 and December 28, 2024 were as follows:

8. Fair Value Measurements

The FASB Accounting Standards Codification requirements for Fair Value Measurements and Disclosures establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. Level 1 inputs, the highest priority, are quoted prices in active markets for identical assets or liabilities. Level 2 inputs reflect other than quoted prices included in Level 1 that are either observable directly or through corroboration with observable market data. Level 3 inputs are unobservable inputs, due to little or no market activity for the asset or liability, such as internally-developed valuation models. We do not have any assets or liabilities measured at fair value on a recurring basis that are Level 3.

The carrying value and fair value of debt as of September 27, 2025 and December 28, 2024 were as follows:

(In millions)	September 27, 2025		December 28, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Notes, net of underwriting commissions, price discounts and debt issuance costs	\$ 2,175.5	\$ 2,104.8	\$ 2,673.3	\$ 2,522.5
Commercial paper borrowings	479.0	479.0	-	-
Total debt	\$ 2,654.5	\$ 2,583.8	\$ 2,673.3	\$ 2,522.5

The estimated fair value of our Notes is determined by using quoted market prices of our debt securities, which are Level 1 inputs. The estimated fair value of borrowings under our Commercial Paper Program is determined primarily using broker quotes, which are Level 2 inputs, and are equal to their carrying value.

Assets and liabilities measured at fair value on a recurring basis as of September 27, 2025 and December 28, 2024 were as follows:

9. Accumulated Other Comprehensive Income (Loss)

Total accumulated other comprehensive income (loss) consists of net income (loss) and other changes in business equity from transactions and other events from sources other than stockholders. It includes currency translation gains and losses, unrealized gains and losses from derivative instruments designated as cash flow hedges, and defined benefit plan adjustments. The after-tax components of and changes in accumulated other comprehensive (loss) income for the thirty-nine and thirteen weeks ended September 27, 2025 and September 28, 2024 were as follows:

- (a) Represents sales to customers whose business is oriented towards builders, professional trade people and home remodelers, inclusive of sales through our customers' respective internet website portals.
(b) Represents sales to the three largest "Do-It-Yourself" retailers: The Home Depot, Inc., Lowe's Companies, Inc. and Menards, Inc., inclusive of sales through their respective internet website portals.
(c) Represents sales principally to our mass merchant and standalone independent e-commerce customers.
(d) Represents sales in markets outside the United States, principally in China, Canada, Europe and Mexico.

As part of our contracts with customers, we recognize contract liabilities, principally deferred revenue. Deferred revenue liabilities represents advanced payments and billings in excess of revenue recognized. Deferred revenue liabilities of \$17.7 million and \$29.6 million as of September 27, 2025 and September 28, 2024, respectively, were included in Other current liabilities in our consolidated balance sheet, and \$13.8 million and \$12.0 million as of September 27, 2025 and September 28, 2024, respectively, were included in Other noncurrent liabilities in our consolidated balance sheet.

11. Defined Benefit Plans

The components of net periodic benefit income for pension benefits for the thirty-nine and thirteen weeks ended September 27, 2025 and September 28, 2024 were as follows:

12. Income Taxes

The effective income tax rates for the thirty-nine and thirteen weeks ended September 27, 2025 were 28.7% and 25.3%, respectively. The effective income tax rates for the thirty-nine and thirteen weeks ended September 28, 2024 were 22.3% and 22.6%, respectively.

The difference between the Company's effective income tax rate for the thirty-nine weeks ended September 27, 2025, and the U.S. statutory rate of 21% primarily relates to state income taxes, including the state income tax impacts of legal entity restructuring, foreign income taxed at higher income tax rates, and dividend withholding tax, partially offset by decreases in uncertain tax positions.

The difference between the Company's effective income tax rate for the thirteen weeks ended September 27, 2025, and the U.S. statutory rate of 21% primarily relates to state income taxes and foreign income taxed at higher income tax rates, partially offset by provision to return adjustments.

On July 4, 2025, the One Big Beautiful Bill Act ("OBBBA") was enacted into law. The OBBBA includes significant provisions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act, modifications to the international tax framework and the restoration of favorable tax treatment for certain business provisions. As permitted by the OBBBA, the Company is currently planning to deduct amounts for domestic research and experimental costs that had previously been required to be capitalized and amortized and take 100% bonus depreciation on eligible assets.

13. Product Warranties

We generally record warranty expense related to contractual warranty terms at the time of sale. We may also provide customer concessions for claims made outside of the contractual warranty terms and those expenses are recorded in the period in which the concession is made. We offer our customers various warranty terms based on the type of product that is sold. Warranty expense is determined based on historic claim experience and the nature of the product category. The following table summarizes activity related to our product warranty liability for the thirty-nine weeks ended September 27, 2025 and September 28, 2024.

14. Information on Business Segments

The Company's operations are structured into three segments, Water, Outdoors and Security. These segments are strategic business units with differing products and services.

The chief operating decision maker ("CODM"), our Chief Executive Officer, uses operating income to evaluate the performance of our segments and to make resource allocation decisions. Segment operating income excludes unallocated corporate costs. Operating income is the primary measure of segment profitability used in internal management reporting to the CODM. This measure is used to view operating trends, perform analytical comparisons and benchmark performance between periods, and to evaluate historical and forecasted financial performance as well as performance relative to our competitors. The monthly and quarterly results provided to the CODM include the net sales and operating income or loss of the consolidated Company and each segment. These financial results are reviewed against budget and the prior year in evaluating the performance of the segment. The CODM is also regularly provided qualitative and quantitative metrics to establish an understanding of drivers to the overall performance. The metrics provided include information at a functional level for the Company's operations and supply chain in addition to each segment. These metrics also include service and quality ratings, brand awareness, market performance and outlook, working capital efficiency, operational plant efficiency, commodity pricing, capital spending and an overview of transformation initiatives.

The significant expense categories and amounts shown below align with the segment level information that is regularly provided to the CODM. Intersegment expenses are included within the amounts below. Other operating expenses principally consist of cost of sales and selling, general and administrative expenses, which are not provided to the CODM in managing performance of the operating segments.

The Water segment manufactures or assembles and sells faucets, accessories, kitchen sinks and waste disposals, predominantly under the Moen, ROHL, Riobel, Victoria+Albert, Perrin & Rowe, Aqualisa, Shaws, Emtex, Schaub and SpringWell brands. The Outdoors segment includes fiberglass and steel entry door systems under the Therma-Tru brand name, storm, screen and security doors under the Larson brand name, composite decking and railing under the Fiberon brand name, urethane millwork under the Fypon brand name and wide-opening exterior door systems and outdoor enclosures under the Solar Innovations brand. The Security segment includes locks, safety and security devices, connected and mechanical lock out tag out solutions and electronic security products under the Master Lock, American Lock, Yale and August brands, and fire-resistant safes, security containers and commercial cabinets under the SentrySafe brand. Corporate expenses consist primarily of headquarters administrative expenses.

15. Restructuring and Other Charges

On January 18, 2025, we announced the decision to consolidate U.S. regional offices into one campus headquarters in Deerfield, Illinois. In connection with these consolidation activities and related organizational and personnel changes, the Company currently expects to incur certain cash and non-cash restructuring and other charges related to employee relocation, severance, retention, non-cash asset related costs, lease exit costs, and other transition activities estimated in the range of approximately \$100 million to \$120 million in the aggregate, the majority of which are expected to be cash charges that will be spread through the balance of this fiscal year and fiscal year 2026. For the thirty-nine weeks ended September 27, 2025, we incurred total charges of \$69.2 million, including cash charges of \$54.9 million primarily related to severance and other exit costs, and non-cash charges of \$14.3 million primarily related to acceleration of property, plant and equipment depreciation. For the thirteen weeks ended September 27, 2025, we incurred total charges of \$20.5 million, including cash charges of \$16.6 million primarily related to severance and other exit costs, and non-cash charges of \$3.9 million primarily related to acceleration of property, plant and equipment depreciation. The estimated ranges of restructuring and other charges are provisional and include management judgments and assumptions that could change as we execute our plans. Actual results may differ from these estimates, and the execution of our plan could result in additional charges.

Total restructuring and other charges (gains) for the thirty-nine and thirteen weeks ended September 27, 2025 and September 28, 2024 are shown below.

Such charges or gains may include losses on disposal of inventories, trade receivables allowances from exiting product lines, write-off of displays from exiting a customer relationship, accelerated depreciation resulting from the closure of facilities, and gains and losses on the sale of previously closed facilities.

^(b) Selling, general and administrative expenses.

Restructuring and other charges (gains) in the thirty-nine weeks ended September 27, 2025, are primarily attributable to costs associated with the decision to consolidate the Company's U.S. regional offices into one campus headquarters and its related organizational and personnel changes, a product-line rationalization within our Outdoors segment, and plant closures in all our segments. Restructuring and other charges in the thirty-nine weeks ended September 28, 2024, were primarily attributable to costs associated with the closure of a manufacturing facility within our Security segment, a product-line rationalization within our Outdoors segment and headcount-reduction actions across all segments.

17. Commitments and Contingencies

Litigation

The Company is a party to lawsuits that are ordinary, routine litigation matters incidental to its businesses. It is not possible to predict the outcome of the pending actions, and, as with any litigation, it is possible that these actions could be decided unfavorably to the Company. The Company believes that there are meritorious defenses to these actions and that these actions will not have a material adverse effect upon our results of operations, cash flows or financial condition, and where appropriate, these actions are being vigorously contested. Accordingly, the Company believes the likelihood of material loss is remote.

Environmental

We are involved in remediation activities to clean up hazardous wastes as required by federal and state laws. Liabilities for remediation costs of each site are based on our best estimate of undiscounted future costs, excluding possible insurance recoveries or recoveries from other third parties. Uncertainties about the status of laws, regulations, technology and information related to individual sites make it difficult to develop estimates of environmental remediation exposures. Some of the potential liabilities relate to sites we own, and some relate to sites we no longer own or never owned. Several of our subsidiaries have been designated as potentially responsible parties (“PRP”) under Superfund or similar state laws. In most instances where our subsidiaries are named as a PRP, we enter into cost-sharing arrangements with other PRPs. We give notice to insurance carriers of potential PRP liability, but very rarely, if ever, receive reimbursement from insurance for PRP costs. We believe compliance with current environmental protection laws (before taking into account estimated recoveries from third parties) will not have a material adverse effect upon our results of operations, cash flows or financial condition.

Other

On September 12, 2025, the Company experienced a fire within a portion of one of its manufacturing facilities within the Outdoors segment. The fire primarily caused damage to owned property and equipment. Net sales were not impacted as a result of the fire, due to existing inventory levels and increased output at other manufacturing facilities. The charges of \$3.0 million for the thirteen and thirty-nine weeks ended September 27, 2025, recorded in cost of products sold in the condensed consolidated statement of comprehensive income, include clean-up costs, damage to assets and fixed operating costs, less probable insurance recoveries.

18. Subsequent Events

Dividend Declared

On September 29, 2025, the Company's Board declared a cash dividend of \$0.25 per common share payable on December 10, 2025 to stockholders of record at the close of business on November 21, 2025.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the notes thereto, which are included in this report, as well as our audited consolidated financial statements for the year ended December 28, 2024, which are included in our Annual Report on Form 10-K for the year ended December 28, 2024.

This discussion contains forward-looking statements that are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include all statements that are not historical statements of fact and those regarding our intent, belief or expectations for our business, operations, financial performance or financial condition in addition to statements regarding our expectations for the markets in which we operate, general business strategies, expected impacts from recently-announced organizational and leadership changes, the market potential of our brands, trends in the housing market, the potential impact of costs, including material and labor costs, the potential impact of inflation, expected capital spending, expected pension contributions or de-risking initiatives, the expected impact of acquisitions, dispositions and other strategic transactions, the anticipated impact of recently issued accounting standards on our financial statements, and other matters that are not historical in nature. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans," "outlook," "positioned," "confident," "opportunity," "focus" and similar expressions or future or conditional verbs such as "will," "should," "would," "may," and "could" are generally forward-looking in nature and not historical facts. Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is based on current expectations, estimates, assumptions and projections of our management about our industry, business and future financial results, available at the time this report is filed with the Securities and Exchange Commission. Although we believe that these statements are based on reasonable assumptions, they are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those indicated in such statements, including but not limited to: (i) our reliance on the North American and Chinese home improvement, repair and remodel and new home construction activity levels, (ii) the housing market, downward changes in the general economy, unfavorable interest rates or other business conditions, (iii) the competitive nature of consumer and trade brand businesses, (iv) our ability to execute on our strategic plans and the effectiveness of our strategies in the face of business competition, (v) our reliance on key customers and suppliers, including wholesale distributors and dealers and retailers, (vi) risks relating to rapidly evolving technological change, (vii) risks associated with our ability to improve organizational productivity and global supply chain efficiency and flexibility, (viii) risks associated with global commodity and energy availability and price volatility, as well as the possibility of sustained inflation, (ix) delays or outages in our information technology systems or computer networks or breaches of our information technology systems or other cybersecurity incidents, (x) risks associated with doing business globally, including changes in trade-related tariffs (including recent U.S. tariffs announced or imposed on China, Canada, Mexico and other countries and any reciprocal actions taken by such countries) and risks with uncertain trade environments, (xi) risks associated with the disruption of operations, including as a result of severe weather events, (xii) our inability to obtain raw materials and finished goods in a timely and cost-effective manner, (xiii) risks associated with strategic acquisitions, divestitures and joint ventures, including difficulties integrating acquired companies and the inability to achieve the expected financial results and benefits of transactions, (xiv) impairments in the carrying value of goodwill or other acquired intangible assets, (xv) risks of increases in our defined benefit-related costs and funding requirements, (xvi) our ability to attract and retain qualified personnel and other labor constraints, (xvii) the effect of climate change and the impact of related changes in government regulations and consumer preferences, (xviii) risks associated with environmental, social and governance matters, (xix) potential liabilities and costs from claims and litigation, (xx) changes in government and industry regulatory standards, (xxi) future tax law changes or the interpretation of existing tax laws, (xxii) our ability to secure and protect our intellectual property rights, (xxiii) our ability to achieve the expected benefits of the separation of MasterBrand, Inc. ("MasterBrand"), the Company's Cabinets business (the "Separation") (xxiv) the risk that we may be required to indemnify MasterBrand in connection with the Separation or that MasterBrand's indemnities to us may not be sufficient to hold us harmless for the full amount of liabilities for which MasterBrand has been allocated responsibility and (xxv) the potential that the Separation fails to qualify as tax-free for U.S. federal income tax purposes. These and other factors are discussed in Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended December 28, 2024. We undertake no obligation to, and expressly disclaim any such obligation to, update or clarify any forward-looking statements to reflect changed assumptions, the occurrence of anticipated or unanticipated events, new information or changes to future results over time or otherwise, except as required by law.

OVERVIEW

References to “Fortune Brands,” “the Company,” “we,” “our” and “us” refer to Fortune Brands Innovations, Inc. and its consolidated subsidiaries as a whole, unless the context otherwise requires. The Company is a leading home, security and digital company whose purpose is to elevate every life by transforming spaces into havens. The Company makes innovative products for residential and commercial environments, with a growing focus on digital solutions and products that add luxury, contribute to safety and enhance sustainability.

We believe that the Company has certain competitive advantages including market-leading brands, a diversified mix of channels, lean and flexible supply chains, a strong capital structure, as well as a tradition of strong innovation and customer service. We are focused on outperforming our markets in growth, profitability and returns in order to drive increased stockholder value. We believe the Company’s track record reflects the long-term attractiveness and potential of the categories we serve and our leading brands. We believe the long-term outlook for our products remains favorable, and our strategic advantages, including the set of capabilities we refer to as the Fortune Brands Advantage, will help us to continue to achieve profitable organic growth over time.

We continue to believe our most attractive opportunities are to invest in profitable organic growth initiatives, pursue accretive strategic acquisitions, non-controlling equity investments, and joint ventures, and return cash to stockholders through a combination of dividends and repurchases of shares of our common stock under our share repurchase program as explained in further detail under “Liquidity and Capital Resources” below.

The U.S. market for our products primarily consists of spending on both new home construction and repair and remodel activities within existing homes, with a substantial majority of the markets we serve consisting of repair and remodel spending. Growth in the U.S. market for our home products will largely depend on consumer confidence, employment, wage growth, home prices, equity levels and rates of extraction, stable mortgage rates and credit availability. Increases in inflation and mortgage rates during the preceding years have slowed the pace of single-family and existing home sales activity and new home construction and repair and remodel activities. However, we believe we are well positioned to manage the continued slow-down in the housing market as we believe the fundamental drivers of the housing market remain intact.

We have been and may continue to be impacted by near-term supply, labor and freight constraints, a volatile geopolitical environment, as well as increased rates of inflation, increased interest rates, unfavorable fluctuations in foreign exchange rates and the ongoing and worsening costs of tariffs (including U.S. tariffs announced or imposed on China, Canada, Mexico and other countries and any reciprocal actions taken by such countries).

We anticipate that, absent any mitigation efforts, our costs of goods sold would increase based on the tariffs that have been announced or imposed (either by the United States or by other countries, including China) as of the date of this report. The Company is actively working to mitigate the anticipated impacts of tariffs through a combination of supply chain actions, cost-out activities and strategic pricing actions across all of our channels and brands. However, this is a rapidly evolving landscape, and the Company’s ability to mitigate the anticipated impacts of tariffs could be affected by a number of factors, including additional tariffs or trade-related sanctions imposed by the U.S. or other countries, and if the Company is ultimately not able to substantially mitigate the impacts of tariffs, there would be negative impacts to the Company’s results of operations. We are also unable at this time to determine any future negative impacts from reduced consumer spending as a result of inflationary or other macroeconomic pressures or uncertainty that may result from the imposition of current or future tariffs. We are currently monitoring, and will continue to monitor, potential changes to these tariffs or the imposition of reciprocal or other tariffs or trade restrictions by other countries.

RESULTS OF OPERATIONS

Thirty-Nine Weeks Ended September 27, 2025 Compared To Thirty-Nine Weeks Ended September 28, 2024

Fortune Brands delivered net income of \$222.4 million, or \$1.83 per diluted common share for the thirty-nine weeks ended September 27, 2025 compared to net income of \$366.8 million, or \$2.91 per diluted common share in the prior year. Net income for the thirty-nine weeks ended September 27, 2025 was negatively impacted by lower sales unit volume, asset impairment charges of \$50.1 million and restructuring and restructuring-related expenses in connection with our headquarters consolidation of \$69.2 million. We delivered cash provided by operating activities of \$270.4 million of the thirty-nine weeks ended September 27, 2025, compared to \$395.5 million in the same prior year period.

The following discussion of consolidated results of operations and segment results refers to the thirty-nine weeks ended September 27, 2025 compared to the thirty-nine weeks ended September 28, 2024. Consolidated results of operations should be read in conjunction with segment results of operations.

Net sales

Net sales decreased by \$119.1 million, or 3.4%, primarily due to sales volume decreases in China of \$59.0 million. The remaining decreases were due to lower sales volume, partially offset by disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs and lower customer sales incentives. Net sales were unfavorably impacted by foreign exchange of \$5.4 million.

Cost of products sold

Cost of products sold decreased by \$77.9 million, or 4.0%, primarily due to the lower sales volume, lower restructuring-related charges of \$10.5 million and continued productivity gains across the segments, supported by strategic sourcing initiatives and manufacturing efficiencies, partially offset by tariff and cost inflation. Cost of products sold also includes a loss, net of insurance recovery, of \$3.0 million relating to a fire in a portion of a manufacturing facility within the Outdoors segment.

Selling, general and administrative expenses

Selling, general and administrative expenses increased by \$37.5 million, or 4.0%, primarily due to higher restructuring-related charges of \$27.8 million, distribution costs, and higher professional fees, partially offset by reductions to incentive compensation.

Asset impairment charges

During the thirty-nine weeks ended September 27, 2025, we determined one of our assets within the Outdoors segment met the criteria to be classified as held-for-sale criteria. An impairment charge of \$49.7 million was recorded to reduce the carrying value of the asset to equal fair value, less estimated costs to sell.

Restructuring charges

Restructuring charges of \$49.3 million in the thirty-nine weeks ended September 27, 2025 are primarily due to \$43.3 million of costs incurred in connection with the Company's headquarters consolidation and its related organizational changes, as well as a product-line rationalization within our Outdoors segment and plant and distribution center closures in our Water and Security segments.

Operating income

Operating income decreased by \$165.2 million, or 29.5%, primarily due to lower sales volume, material cost inflation, asset impairment charges of \$50.1 million, higher distribution costs, and higher restructuring and restructuring-related charges of \$52.5 million, partially offset by continued productivity gains across the segments supported by strategic sourcing initiatives and manufacturing efficiencies as well as reductions to incentive compensation.

Interest expense

Interest expense decreased by \$4.2 million, or 4.5%, primarily due to lower interest rates on current-period commercial paper borrowings and lower senior unsecured notes outstanding, partially offset by higher commercial paper borrowings net of repayments during the thirty-nine weeks ended September 27, 2025, as compared to the thirty-nine weeks ended September 28, 2024 (\$479.1 million in 2025 versus \$104.7 million in 2024).

Other (income) expense, net

Other (income) expense, net, was \$(5.8) million in the thirty-nine weeks ended September 27, 2025, compared to \$(5.2) million in the thirty-nine weeks ended September 28, 2024. The increase of \$(0.6) million in other (income) expense, net is primarily due to an increase in interest and investment income of \$4.8 million and a decrease in foreign currency transaction expense of \$1.9 million, partially offset by an increase in net periodic benefit expense of \$6.5 million.

Income taxes

The effective income tax rates for the thirty-nine weeks ended September 27, 2025 and thirty-nine weeks ended September 28, 2024 were 28.7% and 22.3%, respectively.

The difference between the Company's effective income tax rate for the thirty-nine weeks ended September 27, 2025, and the U.S. statutory rate of 21% primarily relates to state income taxes, including the state income tax impacts of legal entity restructuring, dividend withholding tax and foreign income taxed at higher rates, partially offset by decreases in uncertain tax positions.

The difference between the Company's effective income tax rate for the thirty-nine weeks ended September 28, 2024, and the U.S. statutory rate of 21% primarily relates to state income taxes and foreign income taxed at higher rates, partially offset by favorable benefits related to a valuation allowance release, provision to return adjustments, decreases in uncertain tax positions, and tax credits.

Net income

Net income was \$222.4 million in the thirty-nine weeks ended September 27, 2025, compared to \$366.8 million in the thirty-nine weeks ended September 28, 2024.

Results By Segment

Water

Net sales decreased by \$89.2 million, or 4.6%, primarily due to sales volume decreases in China of \$59.0 million. The remaining decreases were due to lower sales unit volume, partially offset by disciplined pricing actions across our portfolio, including strategic adjustments to mitigate tariff-related costs. Net sales was unfavorably impacted by foreign exchange of \$5.7 million.

Operating income decreased by \$38.5 million, or 8.7%, primarily due to lower sales volume, material cost inflation, including tariff costs, higher restructuring and restructuring-related charges of \$17.5 million, partially offset by manufacturing efficiencies and lower selling, general and administrative expenses, including reductions to incentive compensation.

Outdoors

Net sales decreased by \$19.0 million, or 1.8%, primarily due to lower sales unit volume, partially offset by disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs, and lower customer sales incentives.

Operating income decreased by \$84.2 million, or 58.5%, due to lower sales unit volume, material cost inflation, including tariff costs, higher restructuring and restructuring-related charges of \$2.2 million, partially offset by manufacturing efficiencies. Operating income was also unfavorably impacted by asset impairment charges of \$50.1 million and by losses, net of insurance recovery, relating to a fire in a portion of a manufacturing facility of \$3.0 million.

Security

Net sales decreased by \$10.9 million, or 2.0%, primarily due to lower sales unit volume, partially offset by disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs, and lower customer sales incentives.

Operating income decreased by \$20.1 million, or 23.2%, primarily due to lower sales unit volume, material cost inflation, including tariff costs, and higher restructuring and restructuring-related charges of \$5.5 million, partially offset by manufacturing efficiencies.

Corporate

Corporate expenses increased by \$22.4 million, or 19.6%, primarily due to higher restructuring and restructuring-related charges of \$27.3 million and higher professional fees, partially offset by reductions to incentive compensation.

Thirteen Weeks Ended September 27, 2025 Compared To Thirteen Weeks Ended September 28, 2024

Fortune Brands delivered net income of \$70.8 million, or \$0.59 per diluted common share for the thirteen weeks ended September 27, 2025 compared to net income of \$136.6 million, or \$1.09 per diluted common share in the prior year. Net income for the thirteen weeks ended September 27, 2025 was negatively impacted by lower sales unit volume, asset impairment charges of \$50.1 million and restructuring and restructuring-related expenses in connection with our headquarters consolidation of \$20.5 million.

The following discussion of consolidated results of operations and segment results refers to the thirteen weeks ended September 27, 2025 compared to the thirteen weeks ended September 28, 2024. Consolidated results of operations should be read in conjunction with segment results of operations.

Net sales

Net sales decreased by \$6.1 million, or 0.5%, primarily due to sales volume decreases in China of \$14.5 million. The remaining decreases were due to lower sales volume, partially offset by disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs. Net sales were favorably impacted by foreign exchange of \$1.2 million.

Cost of products sold

Cost of products sold increased by \$4.3 million, or 0.7%, primarily due to material cost inflation, including tariff costs, higher transportation costs, partially offset by the lower sales volume and continued productivity gains across the segments, supported by strategic sourcing initiatives and manufacturing efficiencies. Cost of products sold also includes a loss, net of insurance recovery, of \$3.0 million relating to a fire in a portion of a manufacturing facility in the Outdoors segment.

Selling, general and administrative expenses

Selling, general and administrative expenses increased by \$15.0 million, or 5.0%, primarily due to higher restructuring-related charges of \$12.3 million, distribution costs, and professional fees, partially offset by reductions to incentive compensation.

Asset impairment charges

During the thirteen weeks ended September 27, 2025, we determined one of our assets within the Outdoors segment, met the criteria to be classified as held-for-sale. Water

Net sales decreased by \$16.6 million, or 2.6%, primarily due to sales volume decreases in China of \$14.5 million. The remaining decreases were due to lower sales unit volume, partially offset by disciplined pricing actions across our portfolio, including strategic adjustments to mitigate tariff-related costs.

Operating income decreased by \$5.5 million, or 3.6%, primarily due to lower sales volume, material cost inflation, including tariff costs, partially offset by manufacturing efficiencies and lower selling, general and administrative expenses, including reductions to incentive compensation.

Outdoors

Net sales increased by \$1.8 million, or 0.5%, primarily due to disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs, partially offset by lower sales unit volume.

Operating income decreased by \$62.8 million, or 108.7%, due to higher material costs, including tariff costs, lower sales unit volume, product mix and higher restructuring and restructuring-related charges of \$1.5 million, partially offset by manufacturing efficiencies. Operating income was also unfavorably impacted by asset impairment charges of \$50.1 million and by losses, net of insurance recovery, relating to a fire in a portion of a manufacturing facility of \$3.0 million.

Security

Net sales increased by \$8.7 million, or 4.9%, primarily due to disciplined pricing actions, including strategic adjustments to mitigate tariff-related costs, partially offset by lower sales unit volume. Net sales was favorably impacted by foreign exchange of \$0.9 million.

Operating income decreased by \$5.3 million, or 16.1%, primarily due to lower sales unit volume, product mix and higher restructuring and restructuring-related charges of \$4.2 million.

Corporate

Corporate expenses increased by \$5.6 million, or 15.1%, primarily due to higher restructuring and restructuring-related charges of \$9.7 million, and higher professional fees, partially offset by reductions to incentive compensation.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are cash on hand, cash flows from operating activities, cash borrowed under our credit facility and cash from debt issuances in the capital markets. Our operating income is generated by our subsidiaries. We believe our operating cash flows, including funds available under the credit facility and access to capital markets, provide sufficient liquidity to support the Company's working capital requirements, capital expenditures and service of indebtedness, as well as to finance acquisitions, repurchase shares of our common stock and pay dividends to stockholders, as the Board of Directors deems appropriate both for the 12-month period following September 27, 2025, and in the long-term.

Our cash flows from operations, borrowing availability and overall liquidity are subject to certain risks and uncertainties, including those described in the section of our Annual Report on Form 10-K for the year ended December 28, 2024 entitled "Item 1A. Risk Factors". In addition, we cannot predict whether or when we may enter into acquisitions, joint ventures or dispositions, repurchase shares of our common stock under our share repurchase program or pay dividends, or what impact any such transactions could have on our results of operations, cash flows or financial condition, whether as a result of the issuance of debt or equity securities, or otherwise.

Long-Term Debt

In June 2025, we repaid our 4.000% senior unsecured notes issued in June 2015 at their maturity date using a combination of cash on hand and commercial paper borrowings.

At September 27, 2025, the Company had aggregate outstanding notes in the principal amount of \$2.2 billion, with varying maturities (the "Notes"). The Notes are unsecured senior obligations of the Company. In addition, we believe that we have the ability to obtain alternative sources of financing if required. The following table provides a summary of the Company's outstanding Notes, including the net carrying value of the Notes, net of underwriting commissions, price discounts and debt issuance costs as of September 27, 2025 and December 28, 2024:

(in millions)	Principal Amount	Issuance Date	Maturity Date	Net Carrying Value	
				September 27, 2025	December 28, 2024
4.000% Senior Notes	\$ 500.0	June 2015	June 2025	\$ -	\$ 499.6
3.250% Senior Notes	\$ 700.0	September 2019	September 2029	697.0	696.5
4.000% Senior Notes	\$ 450.0	March 2022	March 2032	447.0	446.7
4.500% Senior Notes	\$ 450.0	March 2022	March 2052	436.8	436.4
5.875% Senior Notes	\$ 600.0	June 2023	June 2033	594.7	594.1
Total Senior Notes				\$ 2,175.5	\$ 2,673.3
Less: current portion				-	499.6
Total Senior Notes long-term				\$ 2,175.5	\$ 2,173.7

Credit Facilities

In August 2022, the Company entered into a third amended and restated \$1.25 billion revolving credit facility (the “Revolving Credit Agreement”), and borrowings thereunder will be used for general corporate purposes. The maturity date of the facility is August 2027. Interest rates under the Revolving Credit Agreement are variable based on the Secured Overnight Financing Rate (“SOFR”) at the time of the borrowing and the Company’s long-term credit rating and can range from SOFR + 1.02% to SOFR + 1.525%. Under the Revolving Credit Agreement, the Company is required to maintain a minimum ratio of consolidated EBITDA to consolidated interest expense of 3.0 to 1.0. Consolidated EBITDA is defined as consolidated net income before interest expense, income taxes, depreciation, amortization of intangible assets, losses from asset impairments, and certain other one-time adjustments. In addition, the Company’s ratio of consolidated debt minus certain cash and cash equivalents to consolidated EBITDA generally may not exceed 3.5 to 1.0. There were no outstanding borrowings under this facility as of September 27, 2025 and December 28, 2024. As of September 27, 2025, we were in compliance with all covenants under this facility.

We currently have uncommitted bank lines of credit in China, which provide for unsecured borrowings for working capital of up to \$30.5 million in aggregate as of September 27, 2025 and December 28, 2024, respectively. There were no outstanding balances as of September 27, 2025 and December 28, 2024.

Commercial Paper

The Company operates a commercial paper program (the “Commercial Paper Program”) pursuant to which the Company may issue unsecured commercial paper notes. The Company’s Revolving Credit Agreement is the liquidity backstop for the repayment of any notes issued under the Commercial Paper Program, and as such borrowings under the Commercial Paper Program are included in Long-term debt in the condensed consolidated balance sheets. Amounts available under the Commercial Paper Program may be borrowed, repaid and re-borrowed, with the aggregate principal amount outstanding at any time, including borrowings under the Revolving Credit Agreement, not to exceed \$1.25 billion. The Company expects to use any issuances under the Commercial Paper Program for general corporate purposes. Outstanding borrowings under the Commercial Paper Program as of September 27, 2025 was \$479.0 million. No amounts were outstanding as of December 28, 2024.

Cash and Seasonality

On September 27, 2025, we had non-restricted cash and cash equivalents of \$227.4 million, of which \$191.1 million was held at non-U.S. subsidiaries. We manage our global cash requirements considering (i) available funds among the subsidiaries through which we conduct business, (ii) the geographic location of our liquidity needs, and (iii) the cost to access international cash balances. The repatriation of non-U.S. cash balances from certain subsidiaries could have adverse tax consequences as we may be required to pay and record tax expense on those funds that are repatriated.

Our operating cash flows are significantly impacted by the seasonality of our business. We typically generate most of our operating cash flow in the third and fourth fiscal quarters of each year.

We believe that our current cash position, cash flow generated from operations, amounts available under our revolving credit facility and access to the capital markets should be sufficient for our operating requirements and enable us to fund our capital expenditures, share repurchases, dividend payments, and required long-term debt payments.

Share Repurchases and Dividends

In the thirty-nine weeks ended September 27, 2025, we repurchased 3.8 million shares of our outstanding common stock under the Company’s share repurchase program for \$237.8 million. As of September 27, 2025, the Company’s total remaining share repurchase authorization under its share repurchase program was approximately \$837.2 million. The share repurchase program does not obligate the Company to repurchase any specific dollar amount or number of shares and may be suspended or discontinued at any time.

In the thirty-nine weeks ended September 27, 2025, we paid dividends in the amount of \$90.6 million to the Company’s stockholders. Our Board of Directors will continue to evaluate dividend payment opportunities on a quarterly basis. There can be no assurance as to when and if future dividends will be paid, and at what level, because the payment of dividends is dependent on our financial condition, results of operations, cash flows, capital requirements and other factors deemed relevant by our Board of Directors. Our subsidiaries are not limited by long-term debt or other agreements in their abilities to pay cash dividends or to make other distributions with respect to their capital stock or other payments to the Company.

Acquisitions

On February 29, 2024, we acquired 100% of the outstanding equity interests of Wise Water Solutions, LLC, doing business as Springwell Water Filtration Systems ("SpringWell") for a purchase price of \$105.6 million, net of cash acquired of \$1.4 million. We financed the transaction using cash on hand and borrowings under our existing credit facility. The results of SpringWell are reported as part of the Water Innovations ("Water") segment.

We periodically review our portfolio of brands and evaluate potential strategic transactions and other capital initiatives to increase stockholder value.

Cash Flows

Below is a summary of cash flows for the thirty-nine weeks ended September 27, 2025 and September 28, 2024.

(In millions)	Thirty-Nine Weeks Ended September 27, 2025	Thirty-Nine Weeks Ended September 28, 2024
Net cash provided by operating activities	\$ 270.4	\$ 395.5
Net cash used in investing activities	(84.4)	(258.7)
Net cash used in financing activities	(352.6)	(183.1)
Effect of foreign exchange rate changes on cash	8.6	0.8
Net decrease in cash and cash equivalents	\$ (158.0)	\$ (45.5)

Net cash provided by operating activities was \$270.4 million in the thirty-nine weeks ended September 27, 2025, compared to net cash provided by operating activities of \$395.5 million in the thirty-nine weeks ended September 28, 2024. The decrease in cash provided of \$125.1 million was primarily due to lower net income in 2025 and an increase in accounts receivable and inventory balances compared to the prior period, partially offset by an increase in accounts payable and accrued expenses and other liabilities.

Net cash used in investing activities was \$84.4 million in the thirty-nine weeks ended September 27, 2025, compared to net cash used in investing activities of \$258.7 million in the thirty-nine weeks ended September 28, 2024. The decrease in cash used of \$174.3 million primarily relates to the absence of acquisition-related outflows in 2025 and lower capital expenditures in 2025 as compared to 2024.

Net cash used in financing activities was \$352.6 million in the thirty-nine weeks ended September 27, 2025, compared to net cash used in financing activities of \$183.1 million in the thirty-nine weeks ended September 28, 2024. The increase in cash used of \$169.5 million was primarily due to higher net debt repayments in 2025 as compared to 2024 of \$125.0 million and higher share repurchases in 2025 compared to 2024 of \$47.4 million.

Pension Plans

Subsidiaries of Fortune Brands sponsor their respective defined benefit pension plans that are funded by a portfolio of investments maintained within our benefit plan trust. As of December 28, 2024, the fair value of our total pension plan assets was \$177.1 million, representing funding of approximately 95% of the accumulated qualified benefit obligation liability. During the thirty-nine weeks ended September 27, 2025, we made no pension contributions. For the foreseeable future, we believe that we have sufficient liquidity to meet the minimum funding that may be required by the Pension Protection Act of 2006.

Foreign Exchange

We have operations in various foreign countries, principally Canada, Mexico, the United Kingdom, China, South Africa, Vietnam and France. Therefore, changes in the value of the related currencies affect our financial statements when translated into U.S. dollars.

CRITICAL ACCOUNTING ESTIMATES

There have been no material changes in the information provided in the section entitled "Critical Accounting Estimates" in our Annual Report on Form 10-K for the year ended December 28, 2024.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in the information provided in the section entitled “Quantitative and Qualitative Disclosures about Market Risk” in our Annual Report on Form 10-K for the year ended December 28, 2024.

Item 4. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures.

The Company’s management has evaluated, with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company’s disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in Internal Control Over Financial Reporting.

There have been no changes in the Company’s internal control over financial reporting that occurred during thirteen weeks ended September 27, 2025 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS.

(a) Litigation.

The Company is a party to lawsuits that are ordinary, routine litigation matters incidental to its businesses. It is not possible to predict the outcome of the pending actions, and, as with any litigation, it is possible that these actions could be decided unfavorably to the Company. The Company believes that there are meritorious defenses to these actions and that these actions will not have a material adverse effect upon our results of operations, cash flows or financial condition, and where appropriate, these actions are being vigorously contested. Accordingly, the Company believes the likelihood of material loss is remote.

(b) Environmental.

We are involved in remediation activities to clean up hazardous wastes as required by federal and state laws. Liabilities for remediation costs of each site are based on our best estimate of undiscounted future costs, excluding possible insurance recoveries or recoveries from other third parties. Uncertainties about the status of laws, regulations, technology and information related to individual sites make it difficult to develop estimates of environmental remediation exposures. Some of the potential liabilities relate to sites we own, and some relate to sites we no longer own or never owned. Several of our subsidiaries have been designated as potentially responsible parties (“PRP”) under Superfund or similar state laws. In most instances where our subsidiaries are named as a PRP, we enter into cost-sharing arrangements with other PRPs. We give notice to insurance carriers of potential PRP liability, but very rarely, if ever, receive reimbursement from insurance for PRP costs. We believe compliance with current environmental protection laws (before taking into account estimated recoveries from third parties) will not have a material adverse effect upon our results of operations, cash flows or financial condition.

Item 1A. RISK FACTORS.

There have been no material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 28, 2024.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Below are the repurchases of common stock by the Company or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Exchange Act) for the thirteen weeks ended September 27, 2025:

Issuer Purchases of Equity Securities

	Total number of shares purchased ^(a)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs ^(a)	Maximum dollar amount that may yet be purchased under the plans or programs ^(a)
Thirteen Weeks Ended September 27, 2025				
June 29 – July 26	—	\$ —	—	\$ 837,245,452

Item 5. OTHER INFORMATION.

Securities Trading Plans of Directors and Officers

A significant portion of the compensation of our officers is delivered in the form of equity awards, including performance share awards, restricted stock units and stock options. The Company's compensation programs and practices are designed to pay for performance and to align management's interests with those of the Company's stockholders while attracting, motivating and retaining superior talent to lead our Company. In addition, members of the Board of Directors receive a portion of their compensation in Company common stock. Our executive officers and directors may engage from time to time in the open-market sale or other transactions involving those securities, and may also purchase our securities.

Transactions in our securities by our directors and officers are required to be made in accordance with our Insider Trading Policy, which, among other things, requires that the transactions be in accordance with applicable U.S. federal securities laws that prohibit trading while in possession of material nonpublic information. Rule 10b5-1 under the Exchange Act provides an affirmative defense that enables prearranged transactions in securities in a manner that avoids concerns about initiating transactions at a future date while possibly in possession of material nonpublic information. Our directors and officers are permitted to enter into trading plans designed to comply with Rule 10b5-1.

During the third quarter of 2025, none of our directors or officers adopted or terminated a Rule 10b5-1 trading plan or adopted or terminated a non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K).
